Experience

MABO - Branding Designer/Developer

AUG 2021 - NOV 2021, REMOTE

I was designing all the branding for the company MABO. After the designs were done, I designed and developed an online shop for them using Shopify.

Csilla Lengyel - UI Design/Developer

MAY 2021 - JUL 2021, REMOTE

I designed and developed a website, using Wix for a personal trainer called Csilla. The main goal of the website was to offer a new way for costumers to make an appointment with her and to stay in touch with her.

Big Fish - UX Design/Intern

MAY 2021 - JUL 2021, Budapest-REMOTE

As my graduation project, I worked at the Big Fish company as a UX designer intern, on the Balaton bike project. My main job was to work with the team of the company, and to go through the whole UX process, from research till the finished prototype.

Gemeente Delft - UX Designer/Developer

NOV 2019 - JAN 2020, DELFT

I worked as a UX designer in the development of an MVP for the municipality of Delft. Together with three fellow students, we developed an AR app prototype. My main focus was on the Interface of the app and on the development of the AR experience for smart phones.

Bais - UI Designer/Developer

OCT 2019 - JAN 2020, BUDAPEST

I designed, developed & launched a website for the Budapest Association for International Sports. The client had a need for a new website to create better engagement with their users.

Gemeente Den Haag - UX Designer

FEB 2019 - MAY 2019, THE HAGUE

I worked as a UX designer as part of a group, to create a redesign concept for the atrium of The Hague's Municipality. My job involved: research, interviewing, interface design, and building/creating the prototype concept.

Education

The Hague University of Applied Science - User Experience Design

SEP 2017 - NOV 2020, THE HAGUE
